

# Lafferty Hose Drop Stations™

## High Pressure 400-1000 PSI

### Lafferty Chemical / Rinse Hose Drop

**Stations** provide food plant sanitation crews the effectiveness of spray cleaning and rinsing from one convenient station. Lafferty chemical injector bodies are machined out of stainless steel offering durability and superior chemical resistance. The sprayers draw chemical concentrate directly from original shipping containers, reducing employee exposure to chemicals. Twenty color-coded metering tips provide consistent chemical dilution ratios, ensuring chemical effectiveness. The all-in-one design conserves space and saves on plumbing and installation costs.

## Features And Benefits

- Venturi action
- Stainless steel base with hinged cover
- Stainless steel injector body
- Metering tips
- 50' quick disconnect hose assembly with trigger gun; 18" stainless steel wand, and nozzle.

## Options
