

SPINNER ASSEMBLY

The **Lafferty Spinner Assembly™** is a unique device which can be mounted in various positions for high pressure, cleaning in place (CIP) of conveyORIZED and similar automated equipment — you can quickly recover your investment through savings in manpower and water consumption.

Features And Benefits

- Lower Operating Expenses
- Lower Water Consumption
- Lower Energy costs — when heated water is used to clean, lower water consumption means less water to heat ... thus, reduced heating costs.
- Lower sewer costs due to decreased water usage.

Superior Cleaning

Full circle and flat spray cleaning patterns create aggressive cleaning action and high impact velocity.

Reduced Clean up Time

Increased efficiency by approximately one-third over conventional spray bars.

Standard Sizes:*

24" Model # 741124
30" Model # 741130
36" Model # 741136
42" Model # 741142
46" Model # 741146

*Other sizes available.

Requirements:

750 PSI MAX
12 GPM MAX
