

WR-2 Micro-Flow Foam/Rinse/Spray

MODEL # 975217

OVERVIEW

The WR-2 Micro-Flow Foam/Rinse/Sanitize System is a combination low volume airless foam/sanitizer applicator with a rinse mode. This venturi injection system uses standard city water pressure (35 - 125 PSI) to draw and blend chemical concentrate into the water stream to create an accurately diluted solution. The foaming solution then flows through the discharge hose to the adjustable fan pattern airless foam wand which draws in atmospheric air to create and project wet, clinging foam on to any surface. Alternate the unit and combo gun ball valves to apply sanitizer or to rinse through the fan pattern spray nozzle. The low flow rate makes this unit ideal for use in restaurants or other areas where minimal over-spray and runoff are essential.

Key Features

- Designed for foam cleaning, rinsing and sanitizing small sized areas where compressed air is not available
- Low volume foam, rinse and sanitize functions ensure minimal over-spray and runoff near sensitive areas
- Projects wet, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Adjustable fan pattern foam nozzle
- Apply sanitizer and rinse through the fan nozzle
- Insulated pistol grip combo gun prevents loss of nozzle attachments
- Chemical resistant components ensure years of outstanding performance with minimal maintenance
- Use it where 35-125 PSI water is available
- Water pressure gauge eliminates guessing, reduces set-up time, and helps with troubleshooting
- Available with higher flow rates (#975227)
- See other Foam/Rinse/Spray systems in [Catalog 1](#)

Includes

- Machined polypropylene manifold and injector body
- Easy-to-read pressure gauge for incoming water
- Ball valves to alternate foaming, rinsing and sanitizing
- 20 color-coded precision metering tips to set dilution ratios
- 50' hose with combo gun featuring machined polypropylene airless foam wand and fan nozzle

OPTIONS

Stainless Steel Hose Racks

Large Stainless Steel Hose Rack # 224150

Stainless Steel Jug Racks

Jug Rack, SS, 1 Gallon, Round/Square # 224200

Jug Rack, SS, 2 1/2 Gallon # 224210

Jug Rack, SS, 5 Gallon, Round/Square # 224215

Safe Flow Lid™ for 1 Gallon Jugs

Lid, Suction Tube, and Strainer # 709101

Alternate Check Valve - EPDM Standard

Check Valve, Chemical, PP/Viton, 1/4" # 491315

APPLICATIONS

- Supermarkets
- Deli's
- Restaurants
- Agriculture/Horticulture
- Animal Health
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- And Many Other Applications!

REQUIREMENTS

Chemical Concentrate

Water

Temperature	up to 160°F
Pressure	35 to 125 PSI
Flow	1.0 GPM @ 40 PSI
Supply Line	1/2"

Hose

Foam	3/8" ID x 50'
Rinse	3/8" ID x 50'
Sanitize	3/8" ID x 50'

Nozzle

Foam	#10 Bullet Airless Foamer
Rinse	2510
Sanitize	2510

Dilution Ratio Range @ 40 PSI

Foam	94:1 to 8:1
Sanitize	94:1 to 8:1
