

WPS-PD Asphalt Release Sprayer

MODEL # 931103WPS

OVERVIEW

The WPS-PD Asphalt Release Sprayer is a chemical spray applicator for projecting ready-to-use asphalt release chemicals on to truck beds or tools to prevent asphalt from sticking. This system features a lockable, stainless steel enclosure and uses a rugged 3/8" Warren Rupp air-operated, double-diaphragm pump to draw pre-diluted chemical solution from a static tank and project it through the discharge hose, trigger gun, wand and fan nozzle.

Key Features

- Projects asphalt release chemicals on to truck beds and asphalt tools as a spray
- A rugged AODD pump draws ready-to-use chemical from a static tank
- Fan pattern spray for fast, efficient application
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- Available to dilute chemical "on-the-fly" (#931108WPS)
- Available without an enclosure (#931101-WPS)
- See other industrial chemical applicators in [Catalog 8](#)

Includes

- Lockable, stainless steel pump enclosure
- Air inlet ball valve & air regulator/filter
- 3/8" Warren Rupp AODD pump (Santoprene diaphragms)
- 25' hose, trigger gun, stainless steel wand & fan nozzle
