Airless Tire Foamer Set

MODEL # 910005

OVERVIEW

The Airless Tire Foamer Set is designed to apply wet clinging foam to passenger vehicle tires in tunnel washes. Fed with RTU foaming chemical solution from a central chemical feed system, each of the two unique adjustable Lafferty Bullet Airless Foam nozzles project a wet clinging foam, in wide or narrow foam patterns.*

REQUIREMENTS

RTU Chemical Solution

Temperature	up to 160°F
Pressure	35-125 PSI
Flow	2.0 GPM @ 40 PSI
Supply Line	1/2" & 3/8"
