Electric 1.5 PD Solvent Sprayer

MODEL # 927107

OVERVIEW

The Electric 1.5 PD Solvent Sprayer is a spray applicator for projecting pre-diluted or neat chemical solutions at 1.5 GPM. An electric pump, with Nylon body and Geolast diaphragms for chemical compatibility, draws solution from a static container and provides the pressure to project the solution as a fan pattern spray on to any surface.

Key Features

- Projects solvents as a spray
- The 120V electric pump draws ready-to-use chemical solution from a static tank
- Projects 1.5 gallons per minute
- Fan pattern spray for fast, efficient application
- Chemical resistant wetted components including a Nylon/Geolast pump body and diaphragms
- See other industrial chemical applicators in Catalog 8

Includes

- Lockable, stainless steel pump enclosure
- 120V electric pump
- 50' chemical resistant discharge hose, stainless steel ball valve, trigger gun, stainless steel wand, and fan nozzle

REQUIREMENTS

Ready-to-Use Chemical Solution

Temperature	up to 160°F
Hose	1/2" ID x 50'
Nozzle	2515
Electric	120V

APPLICATIONS

- Solvents

OPTIONS

Stainless Steel Hose Racks

Small Stainless Steel Hose Rack	# 224145
