Timed FPV-PD Asphalt Release Sprayer

MODEL # 974321-TD

OVERVIEW

The Timed FPV-PD Asphalt Release Sprayer is a chemical spray applicator for projecting ready-to-use asphalt release chemicals on to truck beds or tools to prevent asphalt from sticking. This unit features an adjustable dual-function 110V timer which controls the length of application and the delay time, which keeps the driver from immediately restarting the system. When the activation button is pressed, a Flojet air-operated, double-diaphragm pump draws pre-diluted chemical solution from a static tank and projects it through the discharge hose, trigger gun, wand and fan nozzle.

Key Features

- Projects asphalt release chemicals on to truck beds and asphalt tools as a spray
- The Flojet AODD pump draws ready-to-use chemical from a static tank
- The push button activated, adjustable, single-shot timer will apply chemical for up to 6 minutes and then delay for up to 6 minutes to prevent over-application and waste
- Fan pattern spray for fast, efficient application
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- Available to dilute chemical "on-the-fly" (#977002)
- See other industrial chemical applicators in Catalog 8
