Pail/Jug Mount Uni-Body™ A-25 Airless Foamer

MODEL # 975074

OVERVIEW

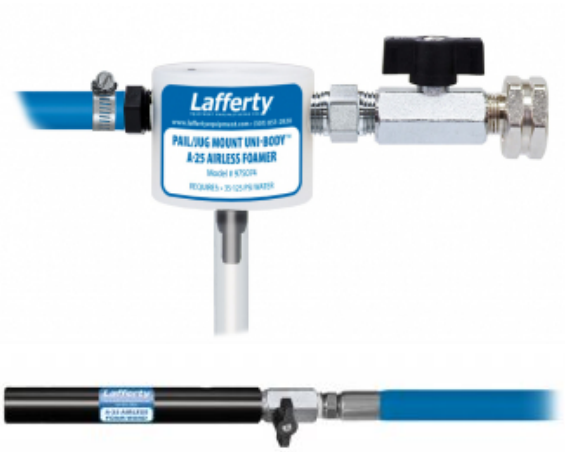

The Pail/Jug Mount Uni-Body A-25 Airless Foamer is a convenient container-mounted chemical applicator that projects a medium volume of wet foam onto any surface at distances up to 6 feet, without compressed air. This venturi injection system uses standard city water pressure (35 - 125 PSI) to draw chemical concentrate directly from the container and blend it into the water stream to create an accurately diluted solution. The solution then flows through the discharge hose to the "airless" foam wand which draws in atmospheric air to create and project wet, clinging foam.

Key Features

- Screws onto, and dispenses directly from, chemical concentrate containers for increased efficiency
- Fits 1-gallon jugs, pull-up spouts on 5-gallon pails, or any container with 38mm OD threads
- Designed for foam cleaning small to medium size areas
- No compressed air required
- Projects a medium volume of wet, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Projects foam up to 6' (depending on water pressure)
- Chemical resistant wetted components ensure outstanding performance with minimal maintenance - machined, not molded!
- Use it where 35-125 PSI water is available
- Easy to set up - no tools or mounting hardware required
- Available for coarse/fine drum bung threads (#975075DBM)
- Available as a wall-mounted unit (#975075)
- See Lafferty Airless Foamers and other chemical applicators in Catalog 11
