Portable WR-1 Foam/Rinse W/ Pistol Grip Gun

MODEL # 975188

OVERVIEW

The Portable WR-1 Foam / Rinse System is a combination medium volume airless foam applicator with a rinse mode. Featuring an all stainless steel cart assembly, this venturi injection system uses standard city water pressure (35 - 125 PSI) to draw and blend chemical concentrate into the water stream to create an accurately diluted solution. The solution then flows through the discharge hose to the airless foam wand which draws in atmospheric air to create and project wet, clinging foam on to any surface up close or at distances up to 6 feet. Quick connect the pistol grip gun to rinse at full pressure.

Key Features

- Foam and Rinse with one convenient system
- Designed for foam cleaning and rinsing where compressed air is not available
- Projects wet, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Quick connect the pistol grip gun to rinse at full pressure
- Chemical resistant components ensure years of outstanding performance with minimal maintenance
- Use it where 35-125 PSI water is available
- Water pressure gauge eliminates guessing, reduces set-up time, and helps with troubleshooting
- Available with a Sanitize function (#975298)
- See Foam/Rinse/Spray systems in Catalog 1

Includes

- All stainless steel 2-wheel cart with non-marking tires
- Stainless steel integrated hose rack
- Stainless steel, round, 5 gallon jug rack (square optional)
- Machined polypropylene manifold and injector body
- Easy-to-read pressure gauge for incoming water
- Ball valves to alternate between foaming and rinsing
- 20 color-coded precision metering tips to set dilution ratios
- 50' hose and discharge assembly
- Quick connect polypropylene airless foam wand
- Quick connect insulated pistol grip gun with fan nozzle and nozzle protector

OPTIONS
