

Photocell Upgrade For Pump Fed Entryway Foam Sanitizers (Specify At Time Of Purchase)

MODEL # 976003EE

OVERVIEW

The Photocell Upgrade allows any Pump Fed Timed Entryway Foam Sanitizer to be activated "on-demand" via a photocell sensor and apply foam to the entryway floor for a set amount of time. The multi-function timer also controls the minimum amount of time between activation, preventing costly over-application when traffic is heavy. Timer settings are field adjustable. This upgrade must be specified at the time of purchase.

Key Features

- This factory-installed upgrade is available for any Pump Fed Timed Entryway Foam Sanitizer at the time of purchase
- Applies foam to the entryway floor when a photocell sensor detects foot traffic
- Automatic activation and shutoff for use in moderate to high traffic areas
- Adjustable timer controls the length of application and delay time, preventing costly over-application
- Chemical resistant wetted components ensure durability and years of reliable service with minimal maintenance
- Available for Venturi Entryway Foam Sanitizers (#976001EE)
- See Catalog 6 for other entryway configurations

Includes

- NEMA rated control box with run/delay timer
- Photocell sensor and reflector
- Solution activation solenoid
