Sentry Secure Hand Sanitizer Dispenser

MODEL # 976901-LB

OVERVIEW

The Sentry Secure Hand Sanitizer Dispenser is a hands free, all stainless steel dispenser for gel and liquid hand hygiene products (sanitizer or soap). Foot pedal activation eliminates contamination due to hand contact, and a stainless steel mechanical pump sprays a field-adjustable amount of product into the users hand. The industrial design allows free-standing operation or permanent installation, and a lockable enclosure secures product to prevent tampering and theft. Perfect for dispensing hand sanitizer in food preparation areas, hospitals, military facilities, retail store entrances, and countless other locations.

Key Features

- Completely foot operated - no hand contact points
- Ideal for transition zones to prevent cross-contamination
- No electricity required - no batteries or electric costs
- Draws liquid or gel sanitizers and soaps
- Does not require expensive, specially-designed chemical packages, which allows the cost savings afforded by using bulk packaged products
- Easy to switch products
- Lockable enclosure secures product to discourage tampering and theft
- Accommodates 1 gallon jugs (6.25" x 6.25" x 14")
- Machined stainless steel pump and all stainless steel construction - built to last!
- Pressure damper absorbs shock from harsh "stomping" on the foot pedal
- Performance tested to over 1 million strokes
- Adjustable from 2,800 to 8,400 dispenses per gallon
- Side-by-side field tests indicated a preference for the Sentry over other available dispensers
- Made in the USA
- Available in a wall-mounted configuration (#976906)
- See other Lafferty sanitation equipment in Catalog 6 and an interactive Sentry guide in the Lafferty Learning Center

Includes

- All stainless steel housing
- Lockable enclosure (lock not included)
- Machined stainless steel dispensing pump
- Output volume adjustment knob with locking nut
- Machined polypropylene Safe Flow™ Lid
