

# 5 Gallon DosaCart

MODEL # 909380

## OVERVIEW

The 5 Gallon DosaCart is a portable system for diluting chemical concentrates on-demand and applying the solution as a fan pattern spray on to any surface. This system uses a water-driven, non-electrical chemical injector (available separately) to draw chemical concentrate from an on-board pail and blend it into the water stream to create an accurately diluted solution. This complete system is mounted on an all stainless steel cart and includes a water filter, water pressure regulator, pressure gauge and flow restrictor. Available fully adjustable proportioners cover dilution ratios from 1:3000 up to 1:5 and a choice of Viton, Aflas or Kalrez seals are available for chemical compatibility.

## Key Features

- Accommodates 7, 11, and 14 GPM Dosatron injectors
- Projects a 4 GPM spray in a fan pattern for even coverage
- Optional alternate flow fan nozzles available (see options)
- Draws chemical concentrate from any 5 gallon pail
- Chemical resistant components ensure years of outstanding performance with minimal maintenance
- Industrial-strength design and stainless steel construction holds up in tough environments
- Available as a wall-mounted Dosatron panel (#909900-D)
- Customizable upon request
- See more chemical management systems in [Catalog 9](#)

## Includes

- All stainless steel 4-wheel cart with integrated hose rack & stainless steel swivel casters
- Non-marking, solid rubber tires
- Stainless steel, round, 5 gallon jug rack (square optional)
- Dosatron injector mounting strap & buckle
- Water filter & water flow restrictor
- Water pressure gauge & pressure regulator
- Machined polypropylene hose stabilizer couplings to prevent damage during use
- 50' discharge hose with stainless steel ball valve
- Stainless steel extension wand & 25° 4 GPM fan nozzle

## OPTIONS

### 5 Gallon Pail

Pail, 5 Gallon Round W/ Suction Stem # 709105

### Square Jug Rack Conversion

Specify Round or Square Jug Racks at time of order

### Nozzles for Alternate Flow Rates

1 GPM Nozzle (2510)	# 180126
2 GPM Nozzle (2520)	# 180131
5 GPM Nozzle (2550)	# 180137

Contact Us For Injector Availability

## APPLICATIONS

- Fertilizers
- Disinfectants
- Agriculture/Horticulture
- Animal Health
- Food & Beverage
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- And Many Other Applications!

## REQUIREMENTS

### Water

Temperature	up to 104°F
Pressure	5 - 85 PSI
Flow	up to 20 GPM
Supply Line	3/4"
